Attached sheet of No. : 035/KU-LN/III/18

No.	Description	Qty	Unit Price	Total Price
1	AUTOMATIC BIOCHEMISTRY ANALYZER	2 Units	€ 26,900.00	€ 53,800.00
	Type : KENZA 240 TX			
	Brand : BIOLABO - France			
	(FULL ACCESSORIES AND COMPLETE SET)			
	AUTOMATIC BIOCHEMISTRY ANALYSER			
	• Up to 240 Tests/hour			
	• Random Access			
	• 60 independent reagent positions			
	• Up to 50 positions for samples, controls and standards			
	• Automatic washing station			
	• Immunospectrophotometry			
	• Stat function			
	• Primary Tubes (Optional)			
	Highest Flexibility			
	- Continuous loading (samples, reagents...)			
	- First results after 2 minutes only			
	- Immediate control rerun during routine			
	- Open anytime! Stops sampling immediately if opened			
	- Low water consumption			
	- No start or stop procedure			
	- Always ready to work			
	Reagents:			
	- Reagent tray: 30 to 60 independent positions			
	- Large, medium and small vials			
	- Adaptors for cups for minimal reagent dead volumes (optional)			
	- Cooled reagent tray, even when the instrument is off			
	- Reagent level sensor			
	Samples:			
	- Sample tray: 50 positions (40 primary tubes or cups + 10 standards and controls)			
	- High precision sampling with Hamilton Syringes			
	- Up to 200 patients for a routine			
	- No results storage limit			
	- Sample level sensor			
	- Continuous probe washing			
	Software:			
	- New skin optimized for touch screen (not included)			
	- Open System			
	- Stat function			
	- Continuous patient addition			
	- Analyses: End Point, Kinetic, Fixed Time, Differential,			
	- Multistandard, Bichromatism, Immunospectrophotometry.			
	- Levey-Jennings + Westgard rules checks and graphs			
	- 4 level management of reagents incompatibilities			
	- Calculated methods			
	- Daily tests statics			
	- Connection to LIMS via RS232			
	- Remote control (optional)			
	Optical Group			
	- Long life halogen lamp

Medical & Laboratory Equipments - Operating Theatre & Intensive Care Equipments - Natal Care - Emergency & Disaster Equipments

-	9 interferential filter : 340-380-405-546-570-600-620-700 nm			
-	Simultaneous reading on 9 wavelength through optic fibre			
-	Optical path : 0,6 cm			
-	50 long-life readings cuvettes			
-	Automatic washing station for cuvettes			
-	Low water consumption : 2 liters per hour during maximal use			
-	225 absorbance reading every 15 seconds			
-	Fiber optic technology			

Total Price =	€ 53,800.00
Freight Cost by Air to JAKARTA =	€ -
Total Cost C&F JAKARTA =	€ -
